

To whom it may concern:

The Cybersecurity and Infrastructure Security Agency (CISA) has issued a memorandum identifying critical infrastructure works during the COVID-19 response. The CISA has stated that critical infrastructure workers “have a special responsibility to maintain your normal work schedule.”

JM Test Systems provides NIST traceable calibration services, cleaning, repair and testing services for personal protective equipment along with inspection, rental, and repair services. These services are provided to our many customers including the nuclear industry, energy industry, oil and gas industry, governmental and military offices.

Chemical

Workers supporting the operation and maintenance of facilities (particularly those with high risk chemicals and/or sites that cannot be shut down) whose work cannot be done remotely and requires the presence of highly trained personnel to ensure safe operations, including plant contract workers who provide inspections

Energy

Workers who maintain, ensure, or restore, or are involved in the development, transportation, fuel procurement, expansion, or operation of the generation, transmission, and distribution of electric power, including call centers, utility workers, reliability engineers and fleet maintenance technicians

Critical Manufacturing

Workers necessary for the manufacturing of materials and products needed for medical supply chains, and for supply chains associated with transportation, energy, communications, food and agriculture, chemical manufacturing, nuclear facilities, the operation of dams, water and wastewater treatment, emergency services, and the defense industrial base. Additionally, workers needed to maintain the continuity of these manufacturing functions and associated supply chains.

Defense Industrial Base

Personnel working for companies, and their subcontractors, who perform under contract to the Department of Defense providing materials and services to the Department of Defense, and government-owned/contractor-operated and government-owned/government-operated facilities.

Transportation and Logistics

Employees supporting or enabling transportation functions, including truck drivers, bus drivers, dispatchers, maintenance and repair technicians, warehouse workers, truck stop and rest area workers, and workers that maintain and inspect infrastructure (including those that require cross-jurisdiction travel)

The employees of JM Test Systems are committed to fulfilling our “Special Responsibility” to our Country during the COVID-19 response period.

JM Test Systems operates 24 hours a day, 7 days a week. Regular operations occur between the hours of 7:00AM and 5:30PM, Monday through Friday. Weekend work may vary depending on work load.

Thank you for your cooperation in facilitating the transportation requirements of the employees at JM Test Systems during this national emergency.

Chief Executive Officer

JM Test Systems
